**2** Stick rubber pads to the underside of the roof brackets.

3 Remove roof plugs to reveal the vehicles fixing points and place rubber washers into the indent. Secure the roof brackets to the fixing points using M8x20 hex bolts and M8 shakeproof washers.
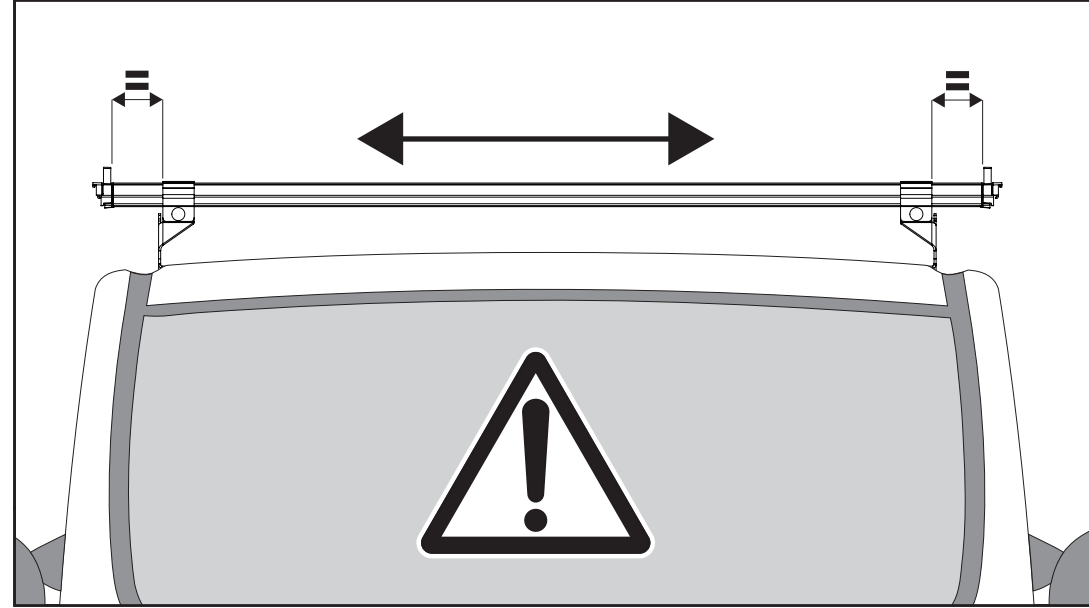

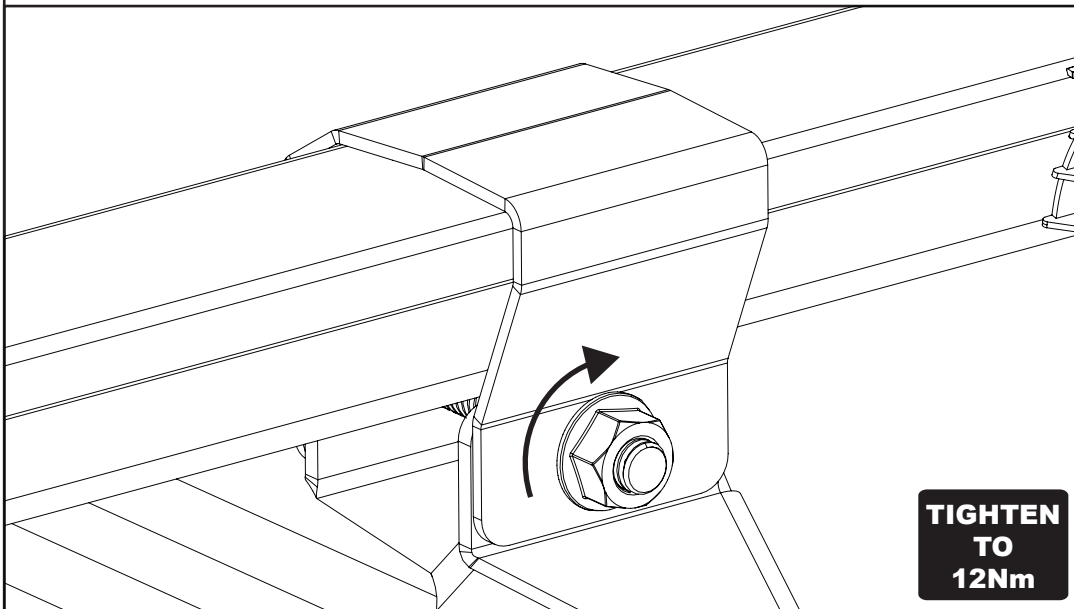

TIGHTEN TO 12Nm

4 **Loosely** secure roof bars to the roof brackets using M8x55 coach bolts and M8 flange nuts.

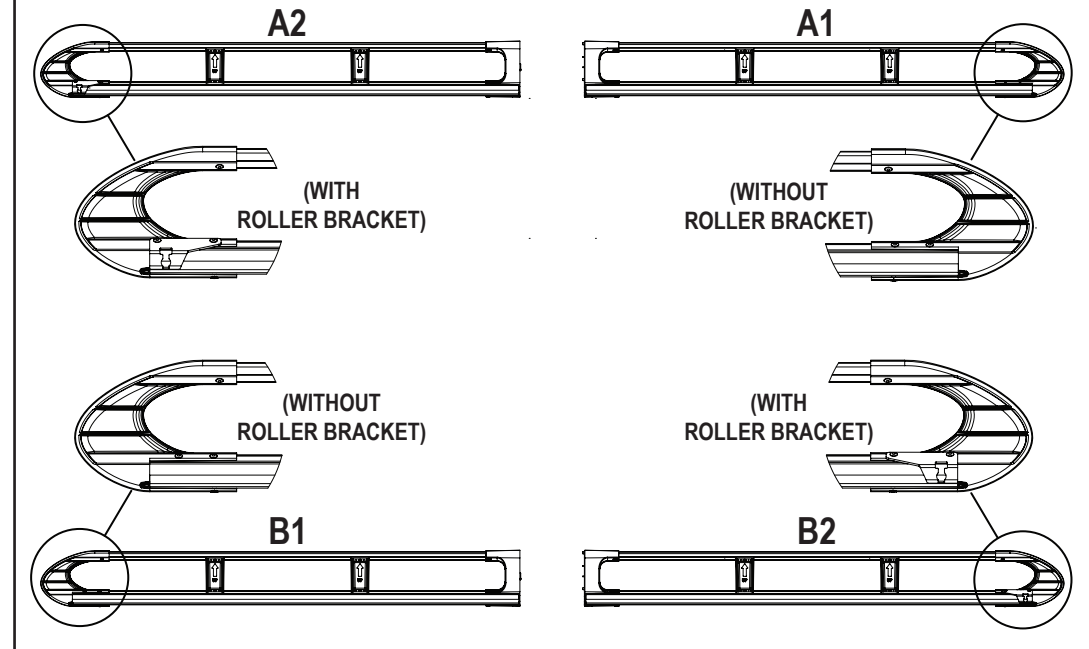

5 Adjust the roof bars to ensure that they're evenly spaced on the vehicle.

6 Tighten the M8 flange nuts.

TIGHTEN TO 12Nm
